[Baby loves that way]  
Yes, she does, yes, she does  
[Baby loves that way]  
Oh, I love my baby  
[Baby loves that way]  
Ooh, I gotta take her  
[Baby loves that way]  
Yep, I love her

Baby likes to go outside,  
so I let her  
Wants to fool with other guys,  
so I let her  
Wants to be bad,  
so I let her be bad  
But fooling around, it will make me sad  
She fools around with other boys  
and treat me  
like an unwanted toy

[Baby loves that way]  
Oh, I love my baby  
[Baby loves that way]  
Ooh, she does too much to me  
[Baby loves that way]  
And I can't think too much of her  
[Baby loves that way]  
Gotta take her, gotta take her

Gonna better leave her alone,  
put you down son  
Treating her real fine,  
thus I'm home being a loner  
J eanny's my babe and that's alright,  
yeah  
She treats me good, each and every night  
She fools around with other boys  
and treat me  
like an unwanted toy

[Baby loves that way]  
I love my baby

[Baby loves that way]  
Ooh, she's too much  
[Baby loves that way]  
Yes she does, yes she does  
[Baby loves that way]  
[Baby loves that way]  
I love my baby  
[Baby loves that way]  
Yeah, she's too much, yeah yeah  
[Baby loves that way]  
Ooh, I think she can live with me  
[Baby loves that way]  
Love her, love her, love her

Baby likes to go outside,  
so I let her  
Wants to fool with other guys,  
so I let her  
Wants to be bad,  
so I let her be bad  
But fooling around, it will make me sad  
She clings around  
with all the boys,  
who treat her  
like a modern toy

[Baby loves that way]  
Obviously this is the end  
[Baby loves that way]  
Gotta take her  
[Baby loves that way]  
Ooh yeah  
[Baby loves that way]  
Can't do enough  
[Baby loves that way]
