I'm on my own, nowhere to roam
I tell you baby, don't want no home
I wander 'round, feet off the ground
I even go from town to town

I said, "I think this rock is grand"
Say "I'll be your man"
Don't bring me down
Don't bring me down

I met this chick the other day
And then to me, she said she'll stay
I get this pad, just like a cave
And then we'll have our living made

And then I'll lead her on the ground
My head is spinning round
Don't bring me down
Don't bring me down
No

Huh, huh, huh
I need a lover, who's someone new
And then to her, I will be true
I'll buy her furs and pretty things
I'll even buy a wedding ring

But until then I'll settle down
Say I'll be your man
Don't bring me down
Don't bring me down

An' until then I'll stare the hand
Say I'll be your man
Don't bring me down
Don't bring me down
Don't bring me down
