Took a trip on a Gemini spacecraft  
And I thought about you  
I passed through the shadow of Jupiter  
And I thought about you

I shot my spacegun  
And boy, I really felt blue

Two or three flying saucers  
Parked under the stars the winding stream  
Moon shining down on some little town  
And with each beam, the same old dream

Took a trip on a Gemini spacecraft  
And I thought about you  
Well, I shot my spacegun  
And I thought about you

Pulled down my sun visor  
Boy, I really felt blue

Jumped into your Gemini, I jumped into mine  
We'll orbit the Moon for just one time  
Tomorrow night, tomorrow night  
Will you hold hands with me under the moonlight?

Took a trip on a Gemini spacecraft  
And I thought about you  
I shot my spacegun  
And I thought about you

I took a, I took a walk in space  
Boy, I, I really felt blue

Well, I peeped through the crack  
And looked way back  
Stardust trail leading back to you  
What did I do? What could I do? Yes, what did I do?

Well, I thought about you  
I thought about you  
Took a trip on a Gemini spacecraft

Thought about you
