I'm working day and night to find me my passage to  
write

I'm gonna get the next train, going to be right by her  
side

Ooh, ah, Kitty, just you see  
Don't put the blame on me, oh no

I want my baby back, oh, no  
I want my baby back

I tried to phone her, but the cable was broke by a storm  
Now I won't see her till tomorrow, when night meets the  
dawn

Ooh, ah, Kitty, just you see  
Don't put the blame on me, oh, no

I want my baby back, oh, no  
I want my baby back

I'll buy her anything  
A big fat car, a diamond ring  
If she will be my girl  
I want her back, I need you girl

I'm working day and night to find me my passage to  
write

I'm gonna get the next train, going to be right by her  
side

Ooh, ah, Kitty, just you see  
Don't put the blame on me, oh, no

I want my baby back, oh, no  
I want my baby back, oh, no
