When you get to the top of the mountain
Look all over the sea
Just think about all other places perhaps
Where a young man could be
And you jump back down to the rooftops
Look out across the town
Think about all other strange things circulatin' round

It ain't easy, it ain't easy
It ain't easy to get to Heaven when you're going down

All the people have got their problems
That ain't nothing new
A little patience and understanding
They're gonna see us all through
They're gonna see us all through
Now gonna get there in the end
It's gonna take you right up and sometimes down again

It ain't easy, it ain't easy
It ain't easy to get to Heaven when you're going down

Satisfaction, keep me all satisfied
With a little understanding, she's callin' from inside
Callin' from inside
She is tryin' to get to you
For all this woman she really want
She can give you somethin' too

It ain't easy, it ain't easy
It ain't easy to get to Heaven when you're going down

It ain't easy, it ain't easy
It ain't easy to get to Heaven when you're going down
