When I live my dream, I'll take you with me  
Riding on a golden horse  
We'll live within my castle, with people there to serve  
you  
Happy at the sound of your voice

Baby, I'll slay a dragon for you  
Or banish wicked giants from the land  
But you will find, that nothing in my dream can hurt you  
We will only love each other as forever  
When I live my dream

When I live my dream, I'll forgive the things you've told  
me  
And the empty man you left behind  
It's a broken heart that dreams, it's a broken heart you  
left me  
Only love can live in my dream

I'll wish, and the thunder clouds will vanish  
Wish, and the storm will fade away  
Wish again, and you will stand before me while the sky  
will paint an overture  
And trees will play the rhythm of my dream

When I live my dream, please be there to meet me  
Let me be the one to understand  
When I live my dream, I'll forget the hurt you gave me  
Then we can live in our new land

Till the day my dream cascades around me  
I'm content to let you pass me by  
Till that day, you'll run to many other men  
But let them know it's just for now  
Tell them that I've got a dream  
And tell them you're the starring role  
Tell them I'm a dreaming kind of guyavoice: here is the  
news  
According to the latest world population survey  
The figures have reached danger point, my god  
London 15 million 75 thousand  
New york 80 million

Paris 15 million and 30  
China 1000 million  
Braidlington-spa lots

My studies included suffragy  
I formed my own society  
To crush the bear of fecundity  
The world will overpopulate  
Unless you claim infertility  
So who will buy a drink for me, your messiah

We are not your friends

We don't give a damn for what you're saying  
We're here to live our lives

I propose to give the pill  
Free of charge to those that feel  
That they are not infertile  
The kroks of you, the cattle gun  
There's only one way to linger on  
So who will buy a drink for me, your messiah

We are not your friends  
We don't give a damn for what you're saying  
We're here to live our lives

Voice:  
Achtung, achtung, these are your orders  
Anyone found guilty of consuming more than their  
allotted amount of air  
Will be slaughtered and cremated  
Only one cubic foot of air is allowed ...

I have prepared a document, legalising mass abortion  
We will turn a blind eye to infanticide

We are not your friends  
We don't give a damn for what you're saying  
We're here to live our lives

You don't seem to hear me clear  
Do I talk above your sphere?  
Let me explain my project, dear  
Show you how I'll save the world  
Or let it die within the year  
Why do you look that way at me, your messiah

We are not your friends  
We don't give a damn for what you're saying  
We're here to live our lives

We are hungry men  
We don't give a damn for what you're saying  
We're here to eat you  
And I'm going to make my dream  
Tell them I will live my dream  
Tell them they can laugh at me  
But don't forget your date with me  
When I live my dream
