Caught you walking' like a gangster

Saw you grabbin' the controls

Now you're almost outta batteries

You gotta sweater much to small

Pokin' at your navel

Pointin' your finger too

You say your lips don't even stick together

When the dust comes up

Blowin' 'cross the plains

Pictures fallin' in and outta their frames!

Good and evil, good and evil

They turned 'em loose, they turned into people

Good and evil, good and evil

They turned 'em loose, they turned into people

You know that roses and lilacs are funky too?

Let 'em go at it, let's see what they do

Now we're wrestlin' with the forces of good and evil

They turned 'em loose, they turned into people

I have seen you do thing backward

You don't believe a word I say

Now you're holdin' sticky paper

Money never fades away
Talkin' like a monster
Smellin' like a baby
You got a head like a bowl full of cherries
S don't be surprised
You go what it takes
Messin' round like monkeys and apes
Good and evil, good and evil
They turned 'em loose, they turned into people
Good and evil, good and evil
They turned 'em loose, they turned into people
You know that roses and lilacs are funky too?
Let 'em go at it, let's see what they do
Now we're wrestlin' with the forces of good and evil
They turned 'em loose, they turned into people
