'You may think I look sad  
But I am just sleeping  
It's my facial expression  
I'm probably dreaming

Would you like to be sad?  
Would you like me to teach you?  
Well, you can learn to be sad  
But you must practice like I do

Na na na, na na na na ...

You must follow directions  
And learn it right from the start  
There isn't a short cut

It must come from your heart

Well there are those who are happy  
And there are those who are wise  
But it's the truly sad people  
Who get the most out of life

Na na na, na na na na ...

You may think I look sad  
But I am just sleeping  
It's my facial expression  
I'm probably dreaming
