I pick up some sand

Watch it melt through my hands

Falling on my feet

Nearby ants on the ground

Building bridges and towns

So robust and neat

So hard to believe

Deep in my eyes

There's so much to wonder

Even the sun, goes through trouble

Shining her light, fighting rubble

Looking for diamonds like the stars

Up so high and down so far

Nobody knows what's going on

So much around, yet so much is gone

Out with the old, in with the new

Just sit back and enjoy the view

A look at the time

You hear the bell chime

Take off your shoes

Fill up your space

And live with a grace  
To find all things true  
Beautiful and new  
Don't close your eyes  
It's splendor in disguise  
Even the sun, goes through trouble  
Shining her light, fighting rubble  
Looking for diamonds like the stars  
Up so high and down so far  
Nobody knows what's going on  
So much around, yet so much is gone  
Out with the old, in with the new  
Just sit back and enjoy the view  
Just sit back and enjoy the view  
Doo doo doo doo doo  
Doo doo doo doo doo  
Doo doo doo doo (2x)  
Enjoy the view  
Enjoy the view
