It's been so long since I've met someone
That makes me feel this way
Makes me smile, and that's hard to do
I don't think it's something you realize you do

You make me feel
Like I'm the only guy
With you in the world

But we can't be together
Can't really be friends
We can't be lovers
And we can't pretend
Oh that boy in your life
Better make you his wife
And he better believe he's a lucky guy

You wanted a song well here's one for you
Nobody will know except for us two
Don't ask me about it
Cuz I won't tell the truth
Just know that there's someone
Thinking of you

You make me feel
Something I wish wasn't real at all

Chorus

You were never mine to begin with...

So we can't be together
Can't really be friends
We can't be lovers
And we can't pretend
Oh that boy in your life
Better make you his wife
And he better believe he's a lucky guy
