When I wake up in the morning youtube

When I dream at night, youtube

In the middle of the day, youtube

You consume my life, youtube

I can't help, but think of you

I just love the things you do

Allow the people,

To post our videos, we love you youtube

I like the founders

Some Asian and some white dude

But more than you

I love youtube

When I wake up in the morning youtube

When I dream at night, youtube

In the middle of the day, youtube

You consume my life, youtube

Youtube, you can comment all over me

Youtube, will you make passionate love to me

You can respond to my video if you'd like

I'll post one right back, oh I think I might

Could you add me to your favorites

And I'll post on your bulletin
Maybe send you a message
If you promise to write me back
I'll log in and out to please you
Oh you know the things I'll do
Oh youtube, oh youtube
When I wake up in the morning youtube
When I dream at night, youtube
In the middle of the day, youtube
You consume my life, youtube
