Like a wild train rollin' so wild and full of steam
Once you get us going It's like nothing you have seen
With some fire in your belly you move a little faster
And the Devil in your makes you hit a little harder

So where do you draw the line and tell yourself no
more
is it When your back's against the wall Or you're
crawlin' on the floor
It's always work, work, work some more Until they say
it's time
So fight the fight worth fighting and things will turn out
fine. and I say

Lordy, lordy, lordy, lordy, lordy, be lordy, lordy, lordy
Big and bad as we can be say
Lordy, lordy, lordy, lordy, lordy, be lordy, lordy, lordy
Big and bad as we can be

This is what it means when we swing on you brother

So now that we know who we really trust
There's plenty room for them but there's more room for
us
When your feet don't touch the ground there's nothing
you can say
Just jump inside enjoy the ride, and make the big boys
pay

Lordy, lordy, lordy, lordy, lordy, be lordy, lordy, lordy
Big and bad as we can be say
Lordy, lordy, lordy, lordy, lordy, be lordy, lordy, lordy
Big and bad as we can be

Lordy, lordy, lordy, lordy, lordy, be lordy, lordy, lordy
Big and bad as we can be say
Lordy, lordy, lordy, lordy, lordy, be lordy, lordy, lordy
Big and bad as we can be yeah
