He spoke and stars came out
He spoke and lighting flashed and thunder broke the
quiet
He spoke and my heart, it burst to life

All this mystery divine

Fall on your knees
Forgiven and clean
Forgiven and free
Oh my God, oh my God
It's too wonderful
It's too wonderful

A voice then all of this
A voice that called me friend in darkest of night
A voice and my heart, it burst to life

Fall on your knees
Forgiven and clean
Forgiven and free
Here we are
It's too wonderful
It's too wonderful

To feel this grace rescuing
Lifting us up, washing our feet
Oh my God, oh my God
It's too wonderful
It's too wonderful
It's too wonderful

Oh reverent love burn us up
Until what I was is gone
Holy love burn us up
Until what I was is gone
Reverent love burn us up
Until what I was is gone
Like clouds dissolve in sunlight

Oh wonder

Fall on your knees
Forgiven and clean
Forgiven and free
Oh my God, oh my God
It's too wonderful
It's too wonderful

Oh feel this grace rescuing
Lifting us up, washing our feet
Oh my God, oh my God
It's too wonderful
It's too wonderful

Oh wonder
Fall on your knees
In wonder
Fall on your knees
In wonder
Fall on your knees
In wonder
Fall on your knees
In wonder
Fall on your knees
In wonder
Fall on your knees
In wonder
Fall on your knees...
In wonder
