Oh great God, give us rest  
We're all worn thin from all of this  
At the end of our hope with nothing left  
Oh great God, give us rest

Oh great God, do Your best  
Have you seen this place, it's all a mess  
And I've done my part too, well I 'fess  
Oh great God, do Your best

Could You take a song and make it thine  
From a crooked heart twisted up like mine  
Would You open up Heaven's glory light  
Shine on in, give these dead bones life  
Oh shine on in, give these dead bones life

Let it shine, let it shine  
On and on, on and on, come alive  
Let it shine, let it shine  
On and on, on and on, come alive

Let it shine, let it shine  
On and on, on and on, come alive  
Let it shine, let it shine  
On and on, on and on, come alive

You shine, oh shine  
You shine, oh shine  
You shine, oh shine  
You shine, oh You shine
