There's a darkness in my skin  
My cover's wearing thin, I believe  
I'd love to start again, go back to innocent  
And never leave

Don't give up now  
A break in the clouds  
We could be found  
There's nothing wrong with me  
It's just that I believe things could get better  
And there's nothing wrong with love  
I think it's just enough to believe

Rescue is coming  
Rescue is coming  
Rescue is coming  
Rescue is coming

And there's nothing wrong with you  
And nothing left to do  
But believe something bigger  
And there's nothing wrong with love  
I know it's just enough to believe

Don't give up now  
A break in the clouds  
We will be found  
Rescue is coming now
