Been together for a while now  
Gettin' closer everyday  
I wake up in the morning and smile  
Happy to be your side  
Don't you get me wrong now  
Before we go on  
Got a thing I need to know  
Think it through, just be sure

The life we live (livin')  
The way we lie (lyin')  
It's all about the G's (Baby)  
The way we think (Thinkin')  
The choice you make (Makin')  
It's all about the G's (Baby)

[come be my lady] I can show you what you've always  
dreamed  
[don't be so shady] you can live a life of luxury  
[maybe I'm crazy] I'm just tryna think of you and me  
[this world is so cold] so so cold  
[but that's how it goes]

I don't wanna doubt you  
Your love is really true  
But you see money talks  
Can easily flip your thoughts  
Wanna know if you love me more  
than the Gucci's and Dior  
Losin' you I can't afford  
You're the one I adore

The life we live (livin')  
The way we lie (lyin')  
It's all about the G's (Baby)  
The way we think (Thinkin')  
The choice you make (Makin')  
It's all about the G's (Baby)

[come be my lady] I can show you what you've always  
dreamed  
[don't be so shady] you can live a life of luxury

[maybe I'm crazy] I'm just tryna think of you and me  
[this world is so cold] so so cold  
[but that's how it goes]

Too many play it dirty  
The rocks will make'em crazy  
I need your honesty  
(oh) Too many play it dirty  
The rocks will make'em crazy  
I need your honesty

::bridge::  
[come be my lady] let me show you - I can love you  
[on't be so shady] from the depths of my heart  
[maybe I'm crazy] I won't ignore you - I'll adore you  
[this world is so cold] this world-is so cold  
[but that's how it goes]

[come be my lady] I can show you what you've always  
dreamed  
[don't be so shady] you can live a life of luxury baby  
[maybe I'm crazy] I'm only thinking about you and me  
[this world is so cold] so so cold  
[but that's how it goes]
