Got a sweet woman, she give me what I need
She lives down the alley and she's built with speed
So take me down in the alley
So take me down in the alley
So take me down in the alley if you wanna satisfy me
Don't want no liquor, thirty cents a shot
That stuff down the alley really hits the spot
So take me down in the alley
So take me down in the alley
So take me down in the alley if you wanna satisfy me
Take me down in the alley boy, if you wanna satisfy me
(piano solo by Black Bob)
If you wanna somethin', smell like fish
Down in the alley you can find that dish
So take me down in the alley
So take me down in the alley
So take me down in the alley if you wanna satisfy me
I'm a tough man, I don't want nothin' nice
Goin' down the alley where the wimmen shootin' dice
So take me down in the alley
So take me down in the alley
So take me down in the alley if you wanna satisfy me
Take me down in the alley boy, where the wimmen
shootin' dice
If you wanna satisfy me
Don't give me no woman, from uptown
The wimmen down the alley really breaks 'em down
So take me down in the alley
So take me down in the alley
So take me down in the alley if you wanna satisfy me
Gonna sing this verse, ain't gonna sing no more
If you wanna find me you know where to go
Just go down in the alley
Just go down in the alley
Just go down in the alley, baby if you wanna find me
