"Keep Your Hand On Your Heart"

Visit "[Keep Your Hand On Your Heart](#)" on MotoLyrics.com

Keep your hand right on your heart, keep your mind
right on me
You know I love you baby and I don't care where you
might be

When I first met you, it wasn't but us two, now gal,
you're trying to make
It three
Well you know baby, you can't do that to me

You know that I love you right from my heart, and you
know I've always
Loved you darling

And I hope that we will never part

Keep your hand right on your heart, keep your mind
baby, on me,
You know I love you baby, and I don't care where you
might be
