

# Big Bang "Wonderful"

Visit "[Wonderful](#)" on MotoLyrics.com

2008, we're back  
(Woo) it's all about you sweetie  
It's so hip  
To get a lil something like this y'all  
Let's go BIG BANG second round

Why are you being so shy, don't be afraid and come  
closer  
You're wonderful (you make me crazy)  
I can feel something special from you, tell me (what it  
is)  
You're wonderful (talk to me baby)  
Sometimes it's hard, feel tired, fight occasionally, feel  
hatred  
But know this, believe that you are the only one  
You're wonderful (you're so amazing)

Ma ma girl yo love you are a home-run, you're out of  
this world (strike)  
Don't be sad, don't be afraid, leave everything to me  
I will be next to you always [YB] (I will protect you)  
I will fill your side you're my my my my girl I'll be your  
man

I will protect your happiness and sadness, I will only  
deliver warmness  
I am a strong mazinger who is always next to you  
People are jealous of us, maybe that is making you  
more afraid  
Don't worry about it now, you just need to think cool I  
don't care

(If you are alone) if you are same as me  
(If you want) I will be your friend  
(If this night feels long) if you need me  
Don't hesitate and come to me I need you right now

Repeat Chorus

Yo yo honey honey have some confidence  
Why are you being furtive like a fool; why do you  
become so small like others

Don't be shy about light skinship on the street  
Girl you are different, you know I want you, so I am  
more attracted (to you)

I scream on the rooftop, I draw you so the night sky can  
be filled  
My heart beats again from the thought of you, a song  
reminding me of you locks me in a fantasy  
High high not too fast high high not too much  
High high we so fly alright nothing can be better than  
this

(If you are alone) if you are same as me  
(If you want) I will be your friend  
(If this night feels long) if you need me  
Don't hesitate and come to be I need you right now  
baby

Repeat Chorus

You & me everybody to the top go go, you & me  
everyone follow go go  
You & me everybody go go go, you're wonderful (big  
bang big bang)
