Well the sun's coming up, and the dust it is clearing  
Down the line I am hearing there's a train coming in  
I left my home and my girl, tried to find someplace  
better  
oh but I never could forget her, so let this train take me  
home

CHORUS:

Oh please my darling forgive what I've done  
I've found nothing, just some big lonely world  
So take me back please my lover, take me back please  
my lover  
Took a train to discover I cannot be without you girl

I was young, I was green  
Prone to foolish decisions  
At what I thought was ambition and a will to be free

yeah but freedom's just some word  
Don't believe has a meaning  
So on this train I am leaving trying to get me back  
home

CHORUS

So pour another cup of coffee  
Pretty soon I'll be leaving  
I ain't done petty thieving  
Hitching rides and drinking beer

And I'm so tired of having friends  
Just to keep out of prison  
Oh well this life really isn't all I hoped it would be

CHORUS

Took a train to discover I cannot a be without you girl
