Under the willow to the sound of the street
First time I show you, see it to me
Under the willow you found a little some
And now we're alone, we're alone
Under the willow, we took the mask off
We faced...and promises of love!
Under the willow ..you're so strong
A place to get lost and go where you belong!

Chorus:

Uh, uh, uh, uh!
Just like a shooting star,
straight into my heart, oh!
Uh, uh, uh, uh
I wish you wouldn't stop
Listen to my heart!

Under the willow!
Names on the trees
Hair on the grass, you lay there with me
Under the willow to the sound of the street
Dreaming of all, it could be,
and will be, and should be!

Chorus: (x2)

Uh, uh, uh, uh
Just like a shooting star,
straight into my heart, oh!
Uh, uh, uh, uh
I wish you wouldn't stop
Listen to my heart
It's a shooting star
Straight into my heart!

Under the willow
Water keeps flowing down straight
Promises of love
