Drawn into a world of choices
Bitter hearts and angry voices
I'm tired of promises constantly broken
Words are there just to be spoken
I can't comply

So I can't sit here through this mess
Acting just like all the rest
With a smile

Still

You and I we'll meet as soon this war is over
You and I we'll seize the dream
You won't be sorry

But now I have to go away
I'll save the world today

Gentle grins and perfect plans
That turn out to reveal the monsters around
The werewolves holding silver bullets
Staring at me in my nightmares
It has to stop

It's my turn to stop them
Maybe I won't win but I'll surely try
I'll try

Still

You and I we'll meet as soon this war is over
You and I we'll seize the dream
You wont be sorry

But now I have to go away
I'm going to save the day

No surprises, farewell parties
Tears that fill your green-eyed worries
I hate goodbyes
