'Take me as I am' she said
Her voice so soft, skin so smooth
'Take lot of care' she said
I'm gonna miss our eyes, I'm gonna miss your face

And if at night I cannot sleep is it 'cause you're gone?
Do you think about me?
And if at times I cannot see with these two eyes
You're not afraid to tell me

There's no mistaking the love we're making
I need you
There's no mistaking the love we're making
I need you

'Tell me when you wake' she said
I wanna hear your voice, I've got a lot to say
'Take a lot of care' she said
When you find your way back through that door

And if at night I cannot sleep is it 'cause I'm gone?

Try and think about me
And if at times I cannot see with these two eyes
Don't be afraid to tell me

There's no mistaking the love we're making
I need you
The heaven and the stars are in your eyes
There's no mistaking the love we're making
I need you
There's no mistaking the love we're making
I need you
The heaven and the stars are in your eyes
There's no mistaking the love we're making
I need you
There's no mistaking the love we're making
I need you
There's no mistaking the love we're making
I need you
