Baby, now don't look back  
Don't let those feelings start  
Don't let the line go slack  
When you're pulling it all apart  
How to describe the sky  
Or dismantle a beating heart

Guess, we're just holding on  
Baby, we are holding on  
Honey, we're holding on  
To the world

Seeking assurances  
Some kind of guarantee  
There has to be more than this, oh now  
More than the eye can see  
Holding the lanterns high  
While we sink with our vanity

Guess we're just holding on  
Baby, we're holding on  
Honey, we're holding on  
To the world

Here we are holding on  
Baby, we're holding on  
Honey, we're holding on  
To the world

Now I'm gonna love you  
Like the spring bursts from the ground  
Unfurling from the ground  
Unfurling from the ground

Faces of buildings, trees  
All that is stoned, inert  
Here in these empty streets  
Well, it silently does assert  
That we are just passing ghosts, honey  
Vapors of joy and hurt

And here we are holding on

Baby, we're holding on  
Honey, we're holding on  
To the world

Baby we're holding on  
Oh yeah, we are holding on  
Hey now, we're holding on  
Baby we're holding on

Here we are holding on  
Baby, we're holding on  
Guess we're just holding on to the world  
Baby, we're holding on to the world
