The dawn in all its majesty
Is stealing me away
The dawn in all its honesty
Is turning me to clay

And through the bears of iron rain
Way beyond and back again
I hear the voice of Eden cry
Lift me up, I'm walking on high

It's real love
Real love

This world in all its clarity
Is glorious, is fake
This world in all its vanity
Is more than I can take

And down the road the iron wheels
Chain my heart to how it feels
I hear the voice of Eden cry
Lift me up I'm walking on high

It's real love
Real love
It's real love
Real love
Make it real
Make it real

Well, love now

And something in the heart of me
Is telling me it's time
To meet the eye of destiny
And leave it all behind

And through my bones an iron rage
Paints my soul upon the page
I hear the voice of eden cry
Lift me up to walk on high
Make me wanna lay down and die

Its real love
Real love
Real love
Real love

The dawn in all its majesty
Is stealing me away
