While I was watching, you did a slow dissolve
While I was watching, you did a slow dissolve
While I was watching, you did a slow dissolve

Did I imagine or do the walls have eyes
Did I imagine, they held us hypnotized
Did I imagine or do the walls have eyes, eyes

Life in slow motion, somehow it don't feel real
Life in slow motion, somehow it don't feel real
Life in slow motion, somehow it don't feel real, real,
real

It don't feel real

Snowflakes are falling, I'll catch them in my hands
Snowflakes are falling, I'll catch them in my hands
Snowflakes are falling, now you're my long lost friend,
yeah, yeah

My long lost friend
