All we do is bullshit and party and bullshit some more
All we do is bullshit and party on a global ,
That's that bullshit, let's party
That's that bullshit, let's party

, number one on the billboard spot
You must be high saying it's not
You must be drunk, you must be drunk
I got there and get to your mouth
I suggest you don't fuck around
Everybody know how I get down, you know how I get
down

All we do is bullshit and party and bullshit some more
All we do is bullshit and party on a global ,
That's that bullshit, let's party
That's that bullshit, let's party

Man I get the club jumping there it's nothing I do this all
the time
Now bartender bring 10 bottles I'm falling out of my
mind
Way , the bitches on me, bitch get off me,
you fucking with the flow you got the go
Don't trip, don't trip, just that certified rich nigger shit
Sound like a tech over techno, bizarre, from , bizarre,
, bizarre, , every position, bizarre
Girl slow it down, matter of fact turn around
Bag it up, break it down, you know how we get down

All we do is bullshit and party and bullshit some more
All we do is bullshit and party on a global ,
That's that bullshit, let's party
That's that bullshit, let's party

Till the sun come up, till we all fucked up, till the
Champaign gone
This is celebration, till the music stop, and the lights
come on
Till everybody gone, where's everybody gone
To my house, it's the after party, better grab somebody

Come and move your body, now let's make a toast
To success, you're my guest I'm the host
Sound like a tech over techno, bizarre, from , bizarre,
, bizarre, , every position, bizarre,
Girl slow it down, matter of fact turn around
Bag it up, break it down, you know how we get down

All we do is bullshit and party and bullshit some more
All we do is bullshit and party on a global ,
That's that bullshit, let's party
That's that bullshit, let's party
All we do is bullshit and party and bullshit some more
All we do is bullshit and party on a global ,
That's that bullshit, let's party
That's that bullshit, let's party.
