I feel like the DJ is my bodyguard  
You see the way he keeps me safe  
With the treble and that bass

I feel free enough to party hard  
This dress won't go to waste  
Feels like I own the place, yeah

V.I.P to to be the boss  
You see the way these people stare  
Watching how I fling my hair

I'm a dancefloor lover  
Baby, there's no other  
Who do it like I do it, yeah

From here on out  
I'll be your commander  
No fear, no doubt  
I'll provide the answer

Right now I command you to dance  
I'll be your commander  
Now I command you to dance  
I'll be your commander  
Now I command you to

I'll be your commander  
I'll provide the answer

Ain't no reason to celebrate  
But you know we gon' have a ball  
Champagne spillin' from the wall

And I'll be partying till hellava late  
But I ain't worried, not at all  
I just give my driver a call, yeah

Pick me up at 8am  
No, we ain't stopping right here  
We'll take the party to the crib

Let's go all night, baby  
You won't find no lady  
Who does it like I does it, yeah

From here on out  
I'll be your commander  
No fear, no doubt  
I'll provide the answer

Right now I command you to dance  
I'll be your commander  
Now I command you to dance  
I'll be your commander  
Now I command you to

It's jam packed  
So DJ where you at?  
I know you got my back  
So make that bass attack

Let's make these people move  
You know I need some room  
To do what I do, I'm bout to act a fool  
Turn the lights on

From here on out  
I'll be your commander  
No fear, no doubt  
I'll provide the answer

Right now I command you to dance  
I'll be your commander  
Now I command you to dance  
I'll be your commander  
Now I command you to

I'll be your commander  
I'll provide the answer
