Everybody's war-cry
Everybody's pride
Anybody's soap box
Anybody's laps
Everybody's problem
Everybody's gun
Nobody's started nobody some
Anybody's country
Anybody's blood
Anybody's body in a bodies ...

You do something hurt
You do something pain
Why don't you do something love for a change
You do something cruel
You do something hate
Why don't you do something love for a change

Why don't you do something love (x6) for a change (x3)
