I'm here, I'm here to be
Exactly what you need of me, please do
Please let me do, all the things you want me to

Don't be afraid!

I won't leave you alone tonight, if you need me here,
Juste to hold you tight, baby that's alright 'cause it
Just feels good to me.

Yeah, yeah, don't be afraid!

I won't leave you alone yonight, if you need me here,
Juste to hold you tight, baby that's alright 'cause it
Just feels good to me.

Let luz oh let me me through
I'm not that door that hides for villain truth
Let me in, oh let me in
Along to make you all again

Don't be afraid

I won't leave you alone yonight, if you need me here,
Juste to hold you tight, baby that's alright 'cause it
Just feels good to me.
