"Every Time We Touch"

(with Steve Angelo and Sebastian Ingrosso)

Every time
Every time
Every time we touch

I feel it
I feel it

Every time we touch
Emotions that I can't contain
Sweepin' over me again
Every time we touch
Sensations I can not explain
Washin' all away my pain
Every time we touch
Magic sprinkled deep inside
Sending me the breath of life
Every time we touch (yeah)
Something takes a hold of me
Every time we touch

Every time we touch
Heaven and earth collide
Everything feels so right
Every time we touch
This feeling takes over me
Something takes hold of me

Every time we touch (yeah)
Heaven and earth collide
Everything feels so right
Every time we touch
This feeling takes over me
Something takes hold of me

Every time we touch

Ohhh Yeah
Every time you're near me
Ohhh

And I feel so good, inside
Yeah Yeahhh Yeah

Every time we touch
The secrets of my beating heart
Breaking free out of the dark
Every time we touch (yeah)
All the things I can't express
Fill me up with such happiness

Every time we touch
All the changes that had my heart
Broken all to the ground

Every time we touch
Something takes a hold of me
Every time we touch

Every time we touch
Heaven and earth collide
Everything feels so right
Every time we touch
This feeling takes over me
Something takes hold of me

Every time we touch (yeah)
Heaven and earth collide
Everything feels so right
Every time we touch
This feeling takes over me
Something takes hold of me

Every time we touch
And it feels so good inside
Yeah Yeahhhh
I'm feeling so alive
Everything it feels so right
I'm feeling so alive
Everything it feels so right

Yeah Yeah
