(feat. Kelly Rowland)

Late at night I lose my focus
Late at night I'm calling out for you
It can't be right I got no focus
I hope you noticed
The chemistry is off the radar
Look at me I don't know what to do
This chemistry is off the radar
..... let me see you later

Over and over you run in my mind
Give me one look and you know I'm fine
Can't you see we're only wasting our time
Baby thought you understood
It's the way you look, me
It's the way you move, me
And the way you touch, me
It's the way you love, me

What's the point? I can't remember
Where's the key? Well give it up to me
You got me boy and I surrender
Lets get you back to my

Over and over you run in my mind
Give me one look and you know I'm fine
Can't you see we're only wasting our time

Baby thought you understood
It's the way you look, me
It's the way you move, me
And the way you touch, me
It's the way you love, me

Baby it's simple to see
Baby it's simple
This is where I'm meant to be
This is where I'm meant to be
You stole a piece of my heart
You stole a piece of my heart baby
You're making me start all over

It's the way you love, me
And the way you move, me

It's the way you love, me
And the way you move, me
And the way you touch, me
It's the way you love, me
And the way you love...

Every little thing you do
Everything that you do
You can put me in the mood
You put me in the mood
Now I'm looking straight at you
You're looking at me too
Yeah you know what I want from you!
