Cant stay away from the nightlife  
Think i'm addicted, To the limelight  
and its so bright  
It can easily blind your eyes

When your famous  
Your treated like a superstar  
When our famous  
Your pulling up in your fancy car  
When your famous  
Everybody know just who you are  
When your famous  
They reserve you a spot right next to the bar  
When your famous  
Free champagne and you raise it up high  
When your famous  
All your girlfriends cute and you looking fly  
When your famous  
Damn your partying all night  
When your famous  
and we never get tired

Cant stay away from the nightlife  
Think i'm addicted, To the limelight  
and its so bright  
It can easily blind your eyes
