(feat. Afrojack)

I can hear your thoughts
Like footsteps in the dark
The pain stirs in your voice
Cuts like daggers to my heart
Don't you be afraid
Baby I'm here
Stop running from love
Baby don't you fear

Cause it's louder
So much louder than words
Baby it's louder
So much louder than words
Cause it's louder
So much louder than words
Baby it's louder
So much louder than words

Play the simple game
With all your broken rules
I'm calling out your name
But my heart just still refuses
Don't you be afraid
Baby I'm here
Stop running from love
Baby don't you fear

Cause it's louder
So much louder than words
Baby it's louder
So much louder than words
Cause it's louder
So much louder than words
Baby it's louder
So much louder than words
