You want it your way and I want it mine.
We just can't seem to compromise !
I've done my time here, my sentence is up !
Should come to you as no surprise...

That I see a desperate situation.
You and I have different destinations...

You tell me one thing, you do something else.
I heard you creeping in last night !
I bought the performance, your act was so good.
It took a while to see the light...

And I see a desperate situation.
You and I have different destinations...
I've done some cross-examination...
You and I have different destinations... Different
destinations...

Well, here's where I get off, yeah, thanks for the ride...
We've come upon a fork in the road, we're running on
empty
In a desolate place, it's gonna be a long walk home...

And we're in a desperate situation.
You and I have different destinations...
There's no reconciliation...
You and I have different destinations... Different
destinations...
