Stay, tell me the story again
How it all fell apart in the end
And just when you thought you were too far gone
You're too far gone

Wait, maybe the reasons don't fit
But when did you lose innocence?
And when did you find that you can't hold on?
You can't hold on
When the whole world brings you down,

When stars fall, and ground breaks,
You're sinking, 'cause it's too late
Don't tell me, that it's over
Even though you're, finding it hard to believe
Even though you're, finding it hard to believe

Faith, it's easier said than done
When it's so hard to trust anyone
And maybe it's just a place inside, that you can hide

Wait, I can see you slipping away
Just stay with me
When the whole world brings you down
(when the whole world brings you down,)

When stars fall, and ground breaks,
You're sinking, 'cause it's too late
Don't tell me that it's over,
Even though you're, finding it hard to believe
(in the darkest of nights I will be there)
Even though you're, finding it hard to believe, yeah
(when you're lost, I will guide you home)

When the whole world brings you down,
When the whole world brings you down,
(just stay with me, stay with me)
When the whole world brings you down,
(just stay with me, stay with me)
When the whole world brings you down,

When stars fall, and ground breaks,
You're sinking, 'cause it's too late,
I'm right here, I'm right here
Just stay with me

When stars fall, and ground breaks,
You're sinking 'cause it's too late
Don't tell me, that it's over,
Even though you're, finding it hard to believe

When stars fall, and ground breaks,
You're sinking, and it's too late (stay with me),
Don't tell me, that it's over
Even though you're, finding it hard to believe
(in the darkest of nights i will be there)
Even though you're, finding it hard to believe,
(when you're lost, i will guide you home)

Even though you're, finding it hard to believe
(in the darkest of nights I will be there)
Even though you're, finding it hard to believe
(when you're lost, I will guide you home)
Yeah, yeah

When the whole world brings you down
