Darin Feat David Jassy - Pop that

She's fresh out the box when she's come up in the spot
x4

Look at you shawty you got it locked
Lots a swagger make it hot
Turn around and let it drop drop
Love it when you get up on the floor
And shake that animated butt
Go ahead show it off, why not
There's no shame in lookin' hot hot

Never seen a girl that look so fine
Better show me how you do that whine
So come put it on me, on me
But I really wanna make you mine
Have a body like that's a crime
So come put it on me, on me

What you doin to me
I'm losing my focus
When you pop pop pop that
Bring it to me
You can be my hostess, hostess
So go drop drop drop that
What you doin to me
I'm losing my focus
When you pop pop pop that

No doubt about it that booty's sick
Flip around and make it dip
Like ecstasy I'm on a trip, trip
Gotta get a pick of them hot pants that are wrapped
around your hips
Perfect size perfect fit
Got them fellas throwin tips, tips

Never seen a girl that look so fine
Better show me how you do that whine
So come put it on me, on me
But I really wanna make you mine

Have a body like that's a crime
So come put it on me, on me

What you doin to me
I'm losing my focus
When you pop pop pop that
Bring it to me
You can be my hostess, hostess
So go drop drop drop that
What you doin to me
I'm losing my focus
When you pop pop pop that

David Jassy:
Look at mami get up in the club rotating that,
She be movin' where the paper at
She takin' that and prays for the cake to last
Go ahead get yours go get them stacks
Yeah that's a good look
Mami you should have your name in my phonebook
Cause you know I'm coming up with the I'll hooks
So you can shake it sh-shake it get shook
Blue hill we run this, yeah you know what it is
We're at the bakery bakin' hits man we building a biz
Jump up on a plane to LA write a smash
And be back the next day
Hook up with
The D (scratch) A R-I-N, Jassyworld, Knocdown let's play

What you doin to me
I'm losing my focus
When you pop pop pop that
Bring it to me
You can be my hostess, hostess
So go drop drop drop that
What you doin to me
I'm losing my focus, focus
When you pop pop pop that

She's fresh out the box when she's come up in the spot
