Saw something go wrong today when along, when a  
car went by  
Grey car blew up today when along, when a car went by  
Never thought it really happened that way  
Never thought it really happened that way  
Never thought it really happened that way  
Drew a rod and they blew him away  
Down on the south side, out on Pulaski  
There were pieces of a man all over the skyway  
Well I suffered real bad today, just like in the movies  
Why did mm get an mm mm like that?  
I even felt a little sick  
I never thought it really happened that way  
I never thought it really happened that way  
I wouldn't want to check out in that way  
Drew a rod and they blew him away  
There were pieces of a man all over the skyway  
There were pieces of a man  
Mm mm in the ashtray  
What are you trying to prove now, Benny?  
What are you trying to call me, Benny?  
Better stay out of it, Benny  
Stay out of my wayski
