Who owns the key? I do, that's right, I do
And who owns the machine? I do, that's right, I do
This device will make me famous
This device will make me fly
This device will all holy
This device defies all laws
This device will make me famous
This device will make me fly
This device will make me holy
This device defies all laws
Laws that are stupid and make no sense
NewManGenerator, this can rule the world
I know it -- I know, I built this thing
I know what she does
Who owns the key? That's right, I do
And who owns the machine? That's right, I do
