### "Passing Complexion"

Visit "[Passing Complexion](#)" on MotoLyrics.com

She was his  
She would take his children  
Black and white  
Right to her own breast  
There were times  
When he could mix  
With ordinary white company  
Though?? the subject never came up  
No one would notice  
He had what they call passing complexion  
He had what they call passing complexion  
He had what they call passing complexion  
He had what they call passing complexion  
He'd been white, he'd been black  
They asked him, black like that?  
Yeah!
