The day the healer took I'll
There is but one law
Thou shalt have no constraint
I can love you still
I don't speak much but I
Ponder these things in my heart
In my lovely room
I get lost in my mind
Flying off a bird's behind
Ten cents to a dollar
Life ain't so bad
Let's go into town
I don't want much 'cause
Everything good is free
No more friend no more fun
No more time has begun
No more fun no more friend
No more time till the end
I can't go anywhere and find you
It's different being lost without you
What's that in my head I'm thinking
Maybe I should just say forget it, fuck it
