Kings and shepherds make their way
Straight to where a baby lay
Rich and poor and lonely
Bow before this sight

A star has led them to this place
The word that's been echoing through space
Becomes a child tonight

Light to shine in the darkest night
Light to make all the wrong things right
Light to show everyone the way
Light to shine where a virgin lay
Tonight

Angel voices fill the air
Angel wings are everywhere
Light so bright it's blinding
Shepherds shake with fright

A warmth begins to flood the hill
Fear not, peace to you good will
Comes to earth tonight

Light to shine in the darkest night
Light to make all the wrong things right
Light to show everyone the way
Light to shine where a virgin lay
Tonight

Light will be so bright
It will shine through the darkest night
Send down Your holy light

Star of David, the Prophet's star
Yahweh, God come to where we are
Star to mark the Messiah's birth
Star of heaven now touches earth

Light to shine in the darkest night
Light to make all the wrong things right

Light to show everyone the way
Light to shine where a virgin lay
Tonight
