I guess the party's gonna last all night
They'll keep on dancing 'til the morning light
But all I want is to be by your side
I'm just thinking of you
I'm sitting out here on the stairs by myself
If I could choose I'd rather be somewhere else
I never thought that I would feel this way
But it's OK
I swear that never in a million years
And not even for a million dollars
Would I ever want to let you go
'Cos you're one in a million
One in a million, you know
I keep your picture with me where I go
Although I'm far away you need to know
That I am with you every day and night
It's all right
I swear that never in a million years
And not even for a million dollars
Would I ever want to let you go
'Cos you're one in a million
One in a million, you know
I swear that never in a million years
And not even for a million dollars
Would I ever want to let you go
'Cos you're one in a million
One in a million, you know
Something better's waiting there for us
Something better's gonna find us someday
'Cos you're one in a million
One in a million, I know
