[T.I.:]

It feels the A town come on reminiscence if you wanna
play with death
It get stunned like the crocodile hunter,

Got the racks s; laggin them packs
And know we can't lead the sacks alone higher than
assistant
'cause my weed need a shaporone
And then Bib Boi pass the lighter
I'm convinced that we started the California brush
fires
1 2 and it don't stop, so many whips in my cribs,
You chick came to bitch started roll block
Spend the cash so fast you think I'm fullest
And I love chicks with asshole and hearts like Saint
Louis,
Got chicks huggin my nuts like a speed though,
'cause when I'm on the mike I go for broke like To
But we know I'm reachin paper bills at my mother
house
Atlanta cribs jealous 'cause I'm chillin' at my other
house,
Yeah you may be able to outtrap me,
None of you niggas will ever I'll outtrap me.

I keep you play while some used to play you safe
Boy shake the rest so may as risky bitches in the A
I keep you play while some used to play you safe
Boy shake the rest so may as risky bitches in the A
In the A, in the A, in the A, in the A
A, in the A, in the A, in the A, in the A.
A, in the A, in the A, in the A, in the A.
A, in the A, in the A, in the A, in the A.
