Good evening

Ain't it crazy how yo life seem to play out like a movie?

I'm truly one of the baddest motherfuckers who ever do it

Done did it, done do it again and ain't nobody's taught me

Cause I occupy these streets while these niggas, they rob my shoppin

Been a handsome ass nigga since my mama whipped my bottom

Kept of a platterer of pussy on deck before the money

Oh money's greens, bills, dividends and such

Operation grind & stack cuz these rappers are out of touch

Or like a rabbit they just lost one for 2 a key chain out of luck

My tail is never tucked so fuck niggas beware when you fuck

Let's be clear, I'mma keep it straight up playa like a gentleman

But I won't go back and forth, east west, south north

When my feet touch the ground, wuddup people around

And I'm feeling all love

And I'm feeling all love

From the way that you stare, from the joy that I bare

And I'm feeling all love

And I'm feeling all love

Yo it seems just like yesterday, where did the time go?

I'm giving you the best that I've got, I need to make her wine flow

It's time for that new new shit shit that ya'll been dying for

Divine flows, the radio got ya'll like zombies

Come alive hoes, like a litter full of puppies

Or a baby with a onesie on, your old lady clumsy holmes

That mean she's falling for daddy facts, that's

wanna show me zones
Sweeter than some honey cones, she wanna be the
Queen B
The numero uno, sitting on the throne next to me
But it ain't gonna be easy
Why I got a seat for her, why am I make it loud
Reverse cowgirl, she ridin to make her booty clap
Unbreach birth, feet first, nigga with each burst
Been 10 toes down to those familiar with the sound
So shazam me and then you Google dungeon family
And when you do you will understand I'm boo koo out
of my noodle
With this pad and pen, and boy you penciled in
You're temporary substitute and we can't get you in
Let's begin

When my feet touch the ground, wuddup people
around
And I'm feeling all love
And I'm feeling all love
From the way that you stare, from the joy that I bare
And I'm feeling all love
And I'm feeling all love
