Finally I understand that you have become a memory
There's no word to explain it when I'm being asked
by others
Composed a melody without an ending
But it's unable to continue now
It's like some kind of breath ambushed at the corner of
the street
Unintentionally passed by,
Recollecting all the sweet and sad memories of the
past
Suddenly heartache is unable to constrain anymore
Actually, it has never been forgotten...

Melody...
The tune in my mind never stops spinning
Loved you...
There's many words which I forgot to tell you
Melody...
Uncountable touching music notes in my life
Loved you...
Now that I've lost you,
I realize I should have appreciated you
The song which I was unable to write for you that time
Will be my regret forever,
When I lost my love
If all the mistakes can be repeated
Will it be able to change the ending?
Finally written the song
Listening to every memory which flows together with
the melody
Why after so many years
Still unable to say goodbye...

Melody...
The tune in my mind is so familiar
Loved you...
I can only sigh softly in my heart
Melody...
Uncountable touching music notes in my life
Loved you...
Now that I've lost you,
I realize I should have appreciated you

Melody oh melody
I can never forget forever
How beautiful you are
Let the music sound continuously
Melody oh melody
I don't want to forget
Our happy memories in the past
Please don't wake me from my dreamland

MelodyÂ...
The tune in my mind is so familiar
Loving youÂ...
Please listen till I finish this melody
Please don't goÂ...
MelodyÂ...
You are the unstoppable tune in my mind
Loved youÂ...
I can only sigh without a word in my heart
MelodyÂ...
Uncountable touching music notes in my life
Loved youÂ...
Now that I've lost you
I realize I should have appreciated you
