Break 4 love (x4)

Baby don't you worry
I'm gonna be the man that you want me to be.
There's no need to worry
I'm gonna give you love the way you want it to be.

I'll be there every morning, baby, to hold you tight.
And that's wahy, baby, you don't have to wonder why,
Why I love you. I need you. Got to have you.
I need you right now.
