There's a kind of people who loves the good things
who loves the deep soul things we love to play sweet
games together like a big family in the dancefloor we
are the kids of the quiet revolution and we fight for the
new quiet concept of revolution
we play house music
you dance house music
we feel house
music (x20)

Here we love the light
We love the truth
We will enjoy your truth
Even if he's alive who cares it's all good baby it's all
good we love what is real as real as you're showing
and here we are flying flying
and here we are dreaming dreaming
Let's get together don't get lost (x12)
Here we love the light
We love the truth
Let's get together don't get lost (x17)
