All these stars you've been reaching after.
We been after,
We been after..

I could disappear
live only in your tears.
Just you whisper in my ear
and say good night to the world.

ayyy (4x)

This is the way that the sourcorers say,
they say good night,
say good night to the world.

ayyy (4x)

say good night to the world.
say good night to the world.
say good night to the world.
say good night to the world.

say good night to the world.
say good night to the world.
(say good night to the world.) fades.
