News is always bad on the radio
But the music tells a story to my soul
Let the winter wind take the day away outside
As we look into each other by the fire
I want to hold you

Let me lay down in your arms
Let me lay down in your arms
Let me lay down in your arms
And feel your heartbeat

Like a circle let your feelings swell around me
Won't you hold me lover mine
Keep away the grief of this old ugly world
Wash away my memories in time
I want to hold you

Let me lay down in your arms
Let me lay down in your arms
Let me lay down in your arms
And feel your heartbeat

And I never thought about a thousand years
Always hoped we'd have a little time
If I couldn't find a way to make it last
Let me speak my mind

What can I say to make you want me
Come on come on come on
Rock me easy rock me slow
Love is older than time itself
If you love me, let me know
I want to hold you

Let me lay down in your arms
Let me lay down in your arms
Let me lay down in your arms
Let me lay down in your arms
